To support the global transition to clean electricity, funding for development of energy storage projects is required. Pumped hydro, batteries, hydrogen, and thermal storage are a few of the...

Natron to invest nearly \$1.4 billion in the facility, supported in part by a North Carolina Job Development Investment Grant (JDIG), creating more than 1,000 high-quality local jobs and...

TransGrid Energy LLC, a leading owner and operator of utility-scale renewable energy projects under Hanwha FutureProof, has successfully secured over \$1.4 billion in financing.

The US Department of Energy (DOE) has committed to a \$1.4 billion loan for a project that will use an emerging technology to separate lithium from geothermal brines in California.

Natron Energy said on Thursday it planned to invest \$1.4 billion in a sodium-ion battery manufacturing plant in North Carolina, potentially raising the company's production capacity by 40...

TransGrid Energy LLC, a wholly-owned subsidiary of Hanwha FutureProof, invests, owns and operates battery storage and solar projects across the United States that will drive the shift to a ...

On March 25, the 100 MW vanadium redox flow energy storage power station project started construction in the central district of Leshan City. This new energy benchmark project with a total ...

After three years of development, LG Energy Solution's new \$1.4 billion expansion is now online, but it's not making electric vehicle batteries.

"This successful closing of \$1.4 billion portfolio financing demonstrates the commitment and execution capabilities of TransGrid to advance and deliver this 1,800 MWh of battery storage ...

Bank Uzbekistan Solar and Renewable Energy Storage Project includes the construction and operation of a

1 4 billion energy storage power station

250-MW solar power plant and a 63-MW/126-MWh BESS in the Bukhara region.
