20-120kWh modular battery storage system for commercial, solar, and backup applications. Scalable, high-voltage solution with LiFePO4 safety and BMS.

Whether supporting peak shaving, demand response, or renewable integration, the 120kWh Micro-grid Air-cooled ESS is your trusted solution for next-generation energy storage systems in the C& I sector.

CanPACK is CanEV's configurable, Canadian-built modular battery platform, engineered for rugged duty cycles, precise performance, and seamless integration across electric vehicles, mobile machines, ...

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

Green Power and Storage provides modular battery systems with scalable capacity, high efficiency, and smart integration. Designed for renewable energy storage, microgrids, and backup power to support ...

Introducing the 120kWh High Voltage Rack Energy Storage System in Canada - a reliable and environmentally friendly solution for stable power supply in extreme weather conditions.

The 120 kW automatic switching cabinet integrates STS-based control, protection, and monitoring functions to enable safe and automatic grid-connected and off-grid operation works with energy ...

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

Explore TROES" modular BESS solutions built for Canada. 300+ configurations, local support, and eligible for BC Hydro & federal energy incentives.

120kWh Modular Battery Cabinet Used in Canada for 5G Microstations

Schneider Electric Canada. GVMMODBCW - Galaxy VM UPS Modular Battery Cabinet wide up to 12 strings.
