Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs.

Designing a 1MW solar + 2MWh battery storage project requires careful planning and the right technology. By clearly defining energy goals, choosing the right system architecture, and selecting ...

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage ...

We have the ability to provide customized design and supporting capabilities for various solar systems, such as commercial and home off-grid solar systems, hybrid solar systems, grid-connected solar ...

1MW Energy Storage System is highly integrated with lithium battery, battery management system, PCS, grounding system, power distribution system, temperature control system and fire protection ...

These 1 mega-watt size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions.

The 1MW/2.4MWH Integrated Energy Storage Cabinet is a high-capacity, all-in-one container solution designed for large-scale commercial and industrial applications. It seamlessly connects with your ...

Combiner boxes facilitate solar panels' connection to energy storage cabinets and have lightning protection functions. Due to their high capacity and small size, lithium batteries make excellent ...

With a strong commitment to innovation, sustainability, and quality, we empower homes, businesses, and communities worldwide to harness the full potential of solar energy.

1MW solar cabinet for environmental protection project

Namkoo's containerized battery energy storage solution is a complete, self-contained battery solution for utility-scale energy storage. It puts batteries, A/C, UPS, inverter and auxiliary equipment in a single ...
