It adopts door-mounted embedded integrated air conditioning, which does not occupy cabinet space, improves the available space of outdoor cabinets, has better structural integrity at the ...

The Outdoor Cabinet Energy Storage System is a fully integrated solution that combines safe battery storage, intelligent power management, and weatherproof protection for solar and telecom applications.

It supports remote upgrades, arbitrary parallel combinations, and has IP54 ruggedness. Perfect for large solar farms, industrial microgrids, or critical infrastructure, it maximizes the use of renewable energy, ...

The Outdoor Battery Cabinet is a reliable and weatherproof energy storage enclosure designed to protect power and backup battery systems in outdoor environments.

The Outdoor Base Station Cabinet is a robust and weatherproof telecom cabinet engineered to house communication, power, and battery equipment in outdoor environments.

Ideal for retail stores, restaurants, small factories, telecom base stations, and temporary event sites, these cabinets combine rugged protection (IP54), integrated inverters, and scalable rack-mounted ...

Designed specifically for large - scale industrial and commercial microgrids. It can deliver a battery voltage of 768V, a grid - connected output of 320kW, and enables multi - power coordination among ...

This station offers quick and efficient charging solutions, catering to the bustling lifestyle of the city. Here, drivers can swiftly power their electric vehicles, immersing themselves in the innovation that drives ...

An Outdoor Photovoltaic Energy Cabinet is a fully integrated, weatherproof power solution combining solar generation, lithium battery storage, inverter, and EMS in a single cabinet. It delivers clean, ...

250kW outdoor cabinet for San Salvador microgrid base station

These cabinets are ideal for outdoor base stations in remote, mountainous, or desert regions, especially where grid power is absent, unstable, or costly. They are also used for border ...
