Namibia's state-owned utility, NamPower, has partnered with two Chinese companies to develop the country's largest solar power plant, valued at N\$1.6 billion (US\$89 million).

The project, located in Rosh Pinah in southern Namibia, will be built by China's Jiangxi International Economic and Technical Cooperation Company and Chint New Energy Development Company.

The \$88.6 million solar project, located near Rosh Pinah in the Kharas Region, is expected to boost Namibia's energy independence by reducing fossil fuel reliance and cutting energy ...

After years of recurrent power cuts, Namibia seems to have taken renewable energies seriously, turning to Chinese firms for help with the country's largest solar plant.

The Namibia Power Corporation (NamPower) has awarded a N\$1.4 billion contract to a Chinese joint venture to build a 100-megawatt (MW) solar power plant.

The development marks a crucial step towards enhancing Namibia 's energy self-sufficiency. According to the Washington-based Specialty Energy Platform, Namibia 's state-owned electricity provider, ...

WINDHOEK, Nov. 15 (Xinhua) -- Chinese firm Dongfang Electric International Corporation (DEC) is set to build Namibia's Otjikoto Biomass Power Station, which will add 40 MW to ...
