---

All-in-one, high-performance energy storage system for various industrial and commercial applications. Highly suitable for all kinds of outdoor applications such as EV charging stations, industrial parks, ...

The SolaX ESS-TRENE is an all-in-one C& I energy storage cabinet, in liquid cooling model. Equipped with high-performance LFP cells, advanced energy management, and robust safety features, suitable ...

Integrated Substations: Pre-installed box-type substations featuring compact structure, quick installation, energy-saving, and environmental protection, suitable for urban power grids, temporary power use, ...

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

PCS-8812 liquid cooled energy storage cabinet adopts liquid cooling technology with high system protection level to conduct fine temperature control for outdoor cabinet with integrated energy ...

Featuring an integrated EMS for safe, stable operation, and a built-in isolation transformer for strong load adaptability, the Megarevo cabinet BESS maintains a stable power supply and adapts to ...

Our battery storage cabinets are constructed with a modular design, providing optimal flexibility for businesses across various sectors. Our power storage cabinets also adhere to safety and quality ...

Wenergy provides fully integrated, outdoor-rated ESS cabinets using LiFePO<sub>4</sub> technology with modular design and robust safety architecture. Our solutions are engineered for long-term operation, scalable ...

## 400V External Energy Storage Cabinet for Mining Users

Our Outdoor Cabinet Energy Storage System (QC-215K-O) with Static Transfer Switch (STS) Cabinet (QCB-400V) provide instant backup power during power outages, ensuring production continuity.
