What are edgerack integrated micro data center cabinets?

The EdgeRack integrated micro data center cabinets were manufactured to solve networking problems common to organizations across the globe. They're suitable for businesses big and small and are deployable in both traditional and non-traditional IT environments.

What is a hybrid ESS cabinet?

Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy demands. With support for 200% PV oversizing and a maximum 40A DC input current, the Hybrid ESS Cabinet ensures high throughput for large-scale solar integration.

What is edge computing & how does it work?

Edge computing is a distributed computing framework with the goal of processing data closest to where it's actually generated (Ex. IoT devices, sensors, local servers, etc.). Doing so reduces network latency, saves bandwidth, and gives businesses near real-time insights.

Designed specifically for indoor installations, the L3 HV-60KWH-60K features an IP20-rated enclosure, making it ideal for placement in dedicated electrical rooms, data centers, or other protected areas ...

Explore what Edge computing is and how it (and the right IT enclosure system) can handle scalability, security, protection, disruptors, and standalone solutions.

House your entire edge computing infrastructure in a single secure, prefabricated micro data center cabinet with self-contained cooling, monitoring, & more.

Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy demands.

Built with cutting-edge lithium-ion high-voltage battery technology, this solution can be configured as a 20kWh battery system, expanded to 40kWh, or scaled up to a robust 60kWh commercial battery ...

60kWh Industrial Cabinet for Edge Computing

Our cutting-edge technology seamlessly integrates renewable energy sources with advanced storage and cloud computing capabilities. Each solution is customized to meet the specific needs of ...

The Deye GE-F60 is a high-voltage commercial battery energy storage cabinet designed for commercial and industrial applications requiring reliable, large-scale energy storage.

Designed for commercial, industrial, and microgrid applications, it integrates a 30kW PCS with a 60kWh LiFePO4 battery bank to provide safe, efficient, and reliable power storage.

TommaTech Cabinet Type 60kWh-50kW Power and Energy Storage High Performance Superior performance with next generation LiFePO4 battery technology Intelligent Management System ...

Sunwoda's OASIS 60 is a modular, high-performance battery energy storage system designed for commercial and industrial scale applications.
