Where are data center custom server cabinets made?

AMCO Enclosures offers data center custom server cabinets, cases, cages, cable management, and PowerWhips products. All our custom data center network racks and server racks are manufactured right here in the USA at our facility in Des Plaines, IL. This includes data center custom server cabinets, cases, cages, cable management, and PowerWhips products.

What is included in a colocation data center?

Mesh walls, demarcation rack with patch panels, locking door, ladder rack and fiber raceway up to first cabinet position or up to 10 feet. Security accessories include dedicated cameras, biometric hand scanners and more. Built-to-order mesh cabinets and colocation data center cages with space assigned based on power allocations.

Are network cabinets compatible with server cabinets?

Our network cabinets seamlessly interface with server cabinets, creating a cohesive infrastructure that simplifies power distribution and monitoring. Compatibility with standard 19-inch rack units ensures that server rack cabinets and network racks can be installed side-by-side.

Are custom cabinet configurations available in IBX® data centers?

Custom cabinet configurations available in International Business Exchange (TM) (IBX®) data centers globally. Fully enclosed, secured, and interconnected data center environments for custom, multi-cabinet deployments. Work with our industry-leading engineering experts to design, build, and optimize your critical data center environment.
