Does Argentina have a battery energy storage system?

Argentina has taken a major step toward modernizing its energy infrastructure with the launch of a 500 MW battery energy storage system (BESS) tender under the AlmaGBA program.

Does Argentina have a battery storage tender?

Argentina has opened a \$500 million battery storage tender aimed at adding 500 MW of new energy storage capacity in the Buenos Aires metropolitan area. The AlmaGBA program, managed by CAMMESA, offers long-term contracts with fixed payments and financial guarantees to attract developers.

Why is Argentina planning to expand its electricity transmission network?

Argentina is simultaneously planning over \$1 billion in investments to expand its electricity transmission network, a project vital for reinforcing supply and accommodating future growth. This dual approach - storage for immediate resilience and transmission upgrades for long-term capacity - is a smart strategy.

This country databook contains high-level insights into Argentina portable power station market from 2021 to 2033, including revenue numbers, major trends, and company profiles.

Discover all relevant Battery Storage Companies in Argentina, including Unionbat S.A. and Probattery

Fifteen companies submitted 27 proposals totaling 1,347 MW of storage capacity, far surpassing the government's original goal of 500 MW. The bids reflect an estimated \$1 billion in ...
