MGA Blocks store and deliver thermal energy while remaining outwardly solid. They are the missing piece of grid decarbonisation, turning renewable energy into green steam and power that's available ...

Compact systems that suit homes wanting energy storage without occupying floor space. Units mount to walls in garages, utilities, and sheltered outdoor areas. Features lithium iron phosphate chemistry ...

The B-Box is a cabinet that can fit four 2.5kWh modules and scalable up to 80kWh, making the unit more versatile for installers to size the appropriate solution for residential and commercial customers.

Fully insulated, temperature-controlled and designed to survive the harsh Australian conditions; our BESS and teams have a proven track record of successfully deploying BESS units in remote outback ...

SigenStor is an AI-optimized 5-in-one energy storage system that brings your solar dream to reality, helping you achieve energy independence with maximum efficiency, savings, flexibility and resilience.

The Fronius Reserva battery offers scalable, weatherproof storage built for Australian conditions, integrating seamlessly with Fronius inverters. It delivers energy independence, resilience, ...

The Jungle Power J80 is a high-capacity, portable energy storage system designed to provide reliable, eco-friendly power while reducing your reliance on diesel generators.

RedEarth has a range of Australian-made, on-grid, off-grid, and hybrid energy storage systems. Plus, our energy storage systems are scalable, so you can be confident you're getting a solution that best ...

We're proud to unveil the Magellan KARRI, an Australian-made, fully integrated home energy storage system engineered with safety, performance, and durability at its core.

Australian Modular Energy Storage Unit 80kWh

Their Smile5 series offers modular capacities, allowing homeowners to tailor their energy storage to specific needs. The system supports capacities from 2.9 kWh to 80 kWh, making it ...
