With over 80% of its electricity coming from hydropower, seasonal variations and climate risks push the government to diversify. That's where subsidies for energy storage power stations come into play.

In October 2024, Reliance Enterprises, jointly promoted by Reliance Power and Reliance Infrastructure, initiated a strategic partnership with DHI to develop solar and hydropower projects in Bhutan.

Hydropower will remain the backbone, but solar and wind will fill critical seasonal gaps and support domestic electrification. The result? A more resilient, self-sufficient energy ecosystem ...

Multi-purpose reservoirs and pumped storage with solar hybrids are prioritized for firm power. Solar and other renewables (wind, geothermal, biomass) are promoted via PPPs, ...

With hydropower providing 80% of its electricity, Thimphu's facing a modern dilemma: how to store surplus monsoon energy for dry winters. The Thimphu Power Storage initiative, launched in 2023, ...

India and Bhutan sign MoU to advance solar, wind, hydrogen, and energy storage projects, deepening bilateral clean energy collaboration.

Discover how the Thimphu Wind and Solar Energy Storage Project is revolutionizing renewable energy integration in the Himalayas. This article explores its technical innovations, environmental impact, ...

Situated on the Kholongchhu River in Eastern Bhutan's Trashiyangtse district, the project seeks to meet Bhutan's rising electricity demands and aid India's renewable energy ...

In a move towards regional energy cooperation, India's integrated power company Tata Power has partnered with Bhutan's Druk Green Power Corporation Ltd. (DGPC) to develop 5,000 MW of clean ...

Bhutan wind power energy storage project

Key projects include the Dorjilung HEP, Gongri Reservoir, Jeri Pumped Storage, Chamkharchhu IV, and solar initiatives by Tata Power Renewable Energy Limited. This partnership ...
