Boston power plant energy storage project

The project would connect into the region"s grid through an Eversource substation next to the discontinued Mystic plant, on the city of Boston"s doorstep. "It"s a great location," said Bowman, who ...

Flatiron Energy has received approval from ISO New England for a 300-MW/1,200-MWh battery energy storage system in Boston, Massachusetts. The authorization includes the construction ...

Massachusetts is making a big push for batteries -- not the kind you put in a flashlight, but powerful, tractor trailer-sized batteries that store energy for the electric grid. State officials say...

Flatiron Energy LLC, doing business as (d/b/a) Lite Brite Storage LLC (the "Proponent"), is proposing to construct a new two-storied battery energy storage facility at 35 Electric Avenue in the Brighton ...

Flatiron Energy has commenced initial proceedings to construct a 168MW/672MWh BESS at the site of a former coal-fired power plant located in Bristol County, Massachusetts.

A rendering of the proposed battery energy storage system by Mission Clean Energy in Blandford.

A Battery Energy Storage System proposed for construction in Brighton at 35 Electric Ave. has generated a wave of resident backlash to underdeveloped regulation of BESS facilities, which ...

As outlined in the recent presentation for the local community, Flatiron is proposing to construct a 168MW BESS, known as Salt Cod Storage, at the former coal-fired Montaup Power Plant ...

At 150 MW / 300 MWh, Cranberry Point is helping the Commonwealth reach roughly a third of its goal to deploy 1,000 MWh of battery energy storage by 2025.
