Who is Australia's only vertically integrated & full-service energy solutions provider?

We're Australia's only vertically integrated, full-service energy solutions provider. Our innovative energy solutions are transforming the way power is generated, delivered, and managed across the nation. Operating for over four decades, we've built the experience and capabilities needed to power Australia's clean energy transition.

Who is Energy Power Systems Australia?

Energy Power Systems Australia is part of Caterpillar global network and the Australian Cat Dealer Network who are our state-based dealer partners. Loading... Fill out the form and we'll get back to you as soon as we can.

What is the Big Canberra battery?

The Big Canberra Battery will play a crucial role in managing peak electricity use demand and in supporting the ACT's transition to a more sustainable energy future. For technical specifications of our work on the Big Canberra Battery, or to discuss engaging us on similarly ambitious battery storage projects, please contact our team.

Will big battery power a third of Canberra households in 2025?

Canberra Times: ground breaking ceremony, plugging in profits from a big battery. ITP Renewables was engaged by ECU Energy to provide expert planning support throughout the development and delivery phases of the 250 MW Big Canberra Battery system, which will begin powering one-third of Canberra households from 2025.

The large-scale battery storage system will deliver 250 megawatts (MW) of power, store renewable energy and support grid reliability. Enough energy to power one-third of Canberra for two ...

As a leading Canberra supercapacitor manufacturer, EK SOLAR specializes in advanced energy storage solutions for industries demanding rapid charge-discharge cycles and extreme durability.

Zest Energy is an Australian company specialising in Renewable Energy, Hydrogen Production and Energy Storage solutions. Zest can assist end users to select and procure the right equipment and ...

Canberra coal-to-electricity energy storage equipment manufacturer

Discover sustainable energy solutions with Energy Power Systems. Offering reliable Cat#174; generators, engines, and battery storage systems.

With a goal to achieve 100% renewable electricity, Canberra is investing in solar and wind farms, EV infrastructure, and intelligent battery storage. The integration of microgrid ...

Huijue Group offers industrial and commercial energy storage, PV-BESS -EV Charging, Off-grid / On-grid Microgrid, telecom site solutions, and home solar energy storage, ensuring ...

The Big Canberra Battery will play a crucial role in managing peak electricity use demand and in supporting the ACT's transition to a more sustainable energy future.

EVO Power delivers turnkey battery energy storage systems for commercial, industrial, and utility markets -- enabling safer, smarter, and high-performance clean energy solutions.

We're Australia's only vertically integrated, full-service energy solutions provider. Our innovative energy solutions are transforming the way power is generated, delivered, and managed across the nation.
