DDB's NEMA battery enclosures are engineered for superior protection in harsh environments, ensuring durability and security for critical battery systems.

With proper powder coating or specialized fire-resistant coatings, cold rolled steel battery enclosures provide cost-effective solutions for indoor industrial battery cabinets, telecommunications battery ...

From the industry leader in data center backup batteries, C& D now offers a configurable cabinet solution. In addition to our premium, reliable stationary batteries, we carry a full line of well ...

Alpine Power Systems engineers and builds customized battery cabinets and enclosures for critical power applications, for utility, telecom, CATV, data center and other applications.

This NEMA I rated battery cabinet is constructed of welded, heavy-gauge steel and is available in multiple colors of durable and corrosion-resistant, powder coat finish. Battery cabinet systems come ...

Designed to exceed IFC24 fire-containment standards, it enables secure storage of bulk, damaged, or prototype batteries without the need for a separate fire-rated room. Lightweight, mobile, and field ...

Our engineering team specializes in designing and manufacturing custom racks and cabinets that meet the highest standards of safety and performance. If you have a project that ...

We fabricate structural frames and enclosures for lithium-ion, lead-acid, and solid-state battery applications across the energy, transportation, telecom, and industrial sectors.

With advanced BMS intelligence for precise State of Charge (SoC) and State of Health (SoH) tracking, these battery cabinets simplify installation, reduce maintenance, and optimize runtime.

Corrosion-resistant data center battery cabinets for factories

Exponential Power's Battery Cabinets & Enclosures provide durable, secure solutions for telecommunications and industrial applications. Designed to protect battery systems, these cabinets ...
