Our enclosures are available in IP-rated and NEMA-rated variants, including NEMA 4 and NEMA 4X, offering superior protection against water ingress, dust, and corrosion--ideal for outdoor, washdown, ...

Protect critical systems with ETA Enclosures" electrical enclosures for water and wastewater treatment plants. Durable, corrosion-resistant solutions.

We build custom electrical enclosures for water treatment and wastewater facilities that are tough enough to handle moisture, chemicals, and outdoor elements.

ZERUST® provides corrosion prevention solutions to protect critical power generation equipment, including gearboxes, turbines, heat exchangers, piping systems, and electrical enclosures.

Discover E-abel"s NEMA 4 enclosures designed for harsh environments. Industrial-grade, waterproof, corrosion-resistant boxes with customization options and fast delivery.

Stainless Steel Advantage - NEMA 4X Enclosures are designed to be both dustproof, water spray resistant, and corrosion resistant. NEMA 4X stainless steel enclosures are available in 304 & 316L ...

Built from durable materials such as stainless steel and mild steel, our cabinets provide reliable performance against dust, water, and harsh operating conditions. All enclosures are built with ...

Explore our high-performance NEMA 4X electrical enclosures, engineered for outdoor and indoor environments where protection from water, dust, and corrosive elements is critical. These enclosures ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets

Corrosion-resistant power distribution and energy storage cabinets for water plants

are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

The invention aims to provide an anti-corrosion power distribution control cabinet, which solves the technical problem that titanium tetrachloride or chlorine corrodes electronic elements...
