How much does a 50kw Solar System cost in Australia?

For a more exact figure, contact our specialists for a free quote. For commercial 50kW solar systems in Australia you will be looking at starting prices of \$45,000 to \$50,000 after rebate, excluding GST. For higher quality components from top tier manufacturers with highly efficient inverters the prices will start from \$55,000.

How long does a 50kw Solar System last in Australia?

Most 50kW solar systems in Australia have an average payback period of 4 years. However, depending on your location and energy consumption patterns, the system may pay back in as short as 3 years, or extend to around 5 years. The more energy you consume from your 50kW solar system, the faster it will pay itself back.

Is a 50kw solar power system right for your business?

If you're running a large warehouse, an office complex, or something else entirely a 50kW solar power system is big enough to meet the demands of most medium-large commercial operations across Australia.
