Are Chinese solar power inverters 'undocumented'?

U.S. security experts have reportedly uncovered undocumented communication devices inside Chinese-made solar power inverters -- hardware that's widely used to support renewable energy infrastructure.

Are Chinese-made solar inverters a security risk?

U.S. energy officials are reportedly reassessing the security risks posed by Chinese-made components in renewable energy infrastructure after discovering hidden communication devices inside certain solar inverters.

Did Chinese inverters have unauthorized communications equipment?

Solar Panels Cordon Press. U.S. energy officials have found "unexplained" communications equipment inside some Chinese-made inverter devices, according to a report by Reuters published Wednesday. The document reveals the presence of unauthorized and fraudulent communication devices in several Chinese-made solar power inverters.

Did Chinese Inverter Batteries contain undocumented cellular radios?

Undocumented cellular radios were also found in some batteries from China. Solar Panels Cordon Press. U.S. energy officials have found "unexplained" communications equipment inside some Chinese-made inverter devices, according to a report by Reuters published Wednesday.

Undocumented communication devices have been discovered inside solar inverters and batteries manufactured in China, according to two sources familiar with the matter.

U.S. energy officials are reassessing the risk posed by Chinese-made devices that play a critical role in renewable energy infrastructure after unexplained communication equipment was ...

U.S. energy officials are reportedly reassessing the security risks posed by Chinese-made components in renewable energy infrastructure after discovering hidden communication ...

Over the past nine months, undocumented communication devices, including cellular radios, have also been
