What is a prefabricated cabin for ships?

A prefabricated cabin for ships is built on a factory assembly line where construction is easier and quicker than aboard ship. These units are found on passenger ships, ferries, freighters and other types of vessel. The cabin is usually equipped with all the necessary elements including head, berth, desk, shelves and other furniture.

What is prefab profiles?

Welcome to Prefab Profiles, an ongoing series of interviews with people transforming how we build houses. From prefab tiny houses and modular cabin kits to entire homes ready to ship, their projects represent some of the best ideas in the industry. Do you know a prefab brand that should be on our radar? Get in touch!
