What is a solar tile manufacturer?

As a solar tile manufacturer, we offer innovative solutions to meet your solar product needs. Our solar tiles integrate advanced solar cell technology and can be a direct replacement for traditional tiles as part of a building's roof, providing clean, renewable energy for your home.

What are solar tiles?

Take a look at solar tiles! These innovative tiles seamlessly integrate solar technology into your roof, providing clean and renewable energy while improving your home's curb appeal. So say goodbye to unsightly solar panels and hello to a fashionable and environmentally conscious option.

What certifications do solar roof tiles have?

Our solar roof tiles have passed the following international and domestic certifications: CE certification, TUV certification, CFR-CTC certification, and CQC certification. You can use our solar roof tile products with confidence to provide your family with independent, clean, renewable energy. Contact us now to get Gain Solar discount price

What are thermal solar tiles & hybrid solar tiles?

Thermal solar tiles are created primarily to catch and use solar heat instead of PV panels, which concentrate on generating electrical energy. Hybrid solar tiles are roofing shingles that produce solar energy and mix solar and non-solar tiles to produce a roof that both produces energy and protects against the weather.

Interested in solar tiles? Our comprehensive buying guide covers everything you need to know, from installation to maintenance and cost savings.
