Why is ESB launching a new battery plant in Dublin?

Wednesday, 7th February 2024 Dublin, Ireland - ESB has today opened a major battery plant at its Poolbeg site in Dublin which will add 75MW (150MWh) of fast-acting energy storage to help provide grid stability and deliver more renewables on Ireland's electricity system.

What is the Dublin Energy Hub?

The Dublin Energy Hub, housing the largest battery, serves as a testbed for the future of clean energy in Ireland. It is envisioned as a hub for integrating various green technologies, including offshore wind, hydrogen, and carbon capture and storage, all working together to power a sustainable future for the Emerald Isle.

Where is ESB delivering a new battery energy storage system?

This latest battery energy storage system (BESS), currently the largest site of its kind in commercial operation in Ireland, is part of ESB's pipeline of projects which are being delivered at sites in Dublin and Cork - representing an investment of up to EUR300m.

What is ESB's Poolbeg Energy Hub project?

The project at ESB's Poolbeg Energy Hub in Dublin has been in operation since late November 2023. ESB is partnering with US energy storage specialist Fluence Energy Inc and Irish companies Kirby Group and Powercomm Group on delivering the battery portfolio.

The battery is part of a project pipeline, representing an investment of up to EUR 300 million (USD 323m), that ESB is executing at sites in Dublin and Cork in support of Ireland's climate ...

It is located at Poolbeg Energy Hub, where ESB - around 95% owned by the Irish state with the remaining stake held by its employees - is planning to deploy a combination of clean energy ...

This latest battery energy storage system (BESS), currently the largest site of its kind in commercial operation in Ireland, is part of ESB's pipeline of projects which are being delivered at ...

We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling

Dublin energy storage base project investment

technologies. This is crucial to supporting the balancing of the grid and will facilitate even more ...

ESB, the state-owned electricity company, has announced the opening of a major battery plant at its site in Poolbeg, Dublin. The battery plant will add around 75MW of fast-acting energy...

In a bid to support Irish grid stability, Electricity Supply Board (ESB) has opened a major battery plant at its Poolbeg site in Dublin, which will add 75MW/150MWh of fast-acting energy storage.

Ireland takes a leap towards clean energy with its largest battery storage facility. Explore the benefits of this 150 MWh project.

This latest battery energy storage system (BESS) is part of ESB's pipeline of projects which are being delivered at sites in Dublin and Cork - representing an investment of up to EUR300m.

On Wednesday the 7th of February 2024, the ESB officially opened a major battery plant at its Poolbeg site in Dublin which will add 75MW of fast-acting energy storage, providing increased ...
