For the latest updates and more information, visit our website: <https://www.biolng.com.pl>

It adopts door-mounted embedded integrated air conditioning, which does not occupy cabinet space, improves the available space of outdoor cabinets, has better structural integrity at the top, and has ...

High-capacity modular design that can be scaled from 215kWh to multi-MWh configurations. IP54-rated outdoor cabinet that withstands extreme temperatures, dust, and moisture. Real-time load ...

It is suitable for microgrid scenarios such as small-scale commercial and industrial energy storage, photovoltaic diesel storage, and photovoltaic storage and charging.

Quality stable, if real happened, we will provide repair and replacement.

The IP54 waterproof shell makes it perfect to adapt to a variety of indoor or outdoor industrial and commercial application scenarios, such as photovoltaic charging stations, industrial parks, farms, etc.

The BMZ Hyperion LL 20 Outdoor withstands temperatures from -20°C to $+60^{\circ}\text{C}$. IP54 protection, German engineering, and a 20-year warranty ensure maximum operational reliability outdoors.

Combines high-voltage lithium battery packs, BMS, fire protection, power distribution, and cooling into a single, modular outdoor cabinet. Uses LiFePO₄ batteries with high thermal stability, extensive cycle ...

Kon-TEC E-MATE 50-61-A Outdoor is a high-voltage industrial energy storage system with 61.44 kWh capacity and 614 V nominal voltage. Designed for PV, solar, wind power, and OZE applications such ...

Dyness Tower T10 is a modular energy storage system based on lithium-iron-phosphate (LiFePO₄) technology, designed for use in residential and commercial photovoltaic installations. Thanks to its ...

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW

EU Photovoltaic IP54 Outdoor Shelf High Temperature Resistant Type

bi-directional PCS, optional air- or liquid-cooled thermal management, and parallel operation ...
