Are your seismic rack cabinets safe during an earthquake?

All our seismic racks and cabinets have been engineered, tested, and certified to GR-63-CORE. They are guaranteed to keep your staff and your content safe and secure during an earthquake. However, the benefits of our modular seismic rack cabinets do not end there.

What are Eaton seismic cabinets?

Eaton Seismic Cabinets are performance-tested to EIA-310-E, Seismic Zone 4 (NEBS GR-63-CORE) standards. The enclosures are loaded with simulated equipment and placed on a shaker table designed to replicate the force of an earthquake.

What are the benefits of modular seismic rack cabinets?

They are guaranteed to keep your staff and your content safe and secure during an earthquake. However, the benefits of our modular seismic rack cabinets do not end there. In addition to seismic enhancements, each product can be customized to the needs of your facility.

Why do you need a seismic rack?

However, our seismic racks can help your business maintain a safe work environment and stay productive even in the face of natural disasters. Our modular seismic electronic equipment and Seismic racks are manufactured for stability, and our solutions are guaranteed to keep their composure in the face of seismic activity.

**SEISMIC-RATED CABINET - ROBUST & ACCESSORY-RICH** Welded frame with 3/8" sq. (M6) mounting rails (depth adjustable) to support 1500 lb. seismic rated wt cap. or 6000 lb. non-seismic ...

The Seismic cabinet is derived from the Heavy Duty enclosure Heavy Duty Catalog Section and uses the same double ledge, double plane corner construction. A Seismic Kit is added to our standard ...

The Z4-Series SeismicFrame™ Cabinet System delivers robust seismic protection for critical infrastructure in Zone 4 seismic zones, meeting Telcordia GR-63-CORE requirements.

Protect equipment in any environment, regardless of geographic location. The use of seismic-rated enclosures is recommended in areas where earthquake activity or excessive vibration is possible.

## Earthquake-resistant outdoor cabinet for field operations

All our seismic racks and cabinets have been engineered, tested, and certified to GR-63-CORE. They are guaranteed to keep your staff and your content safe and secure during an earthquake.

We offer design services and solutions to meet the needs of any seismic cabinet specification. Everything from material cutting to welding, machining, and fabrication is all handled in house ...

Gain a better understanding of seismic cabinet zone requirements and how they impact equipment safety in earthquake-prone areas. Explore the benefits of seismic-rated racks designed for high load ...

For Optical Distribution Frame installations, DCX Seismic Cabinets are fully configurable, front-access cabinets that serve as a high-density fiber interconnect or the main building block for a large fiber ...

We work with companies to custom manufacture seismic cabinets to fit their requirements. Working with Juniper, we manufactured this custom seismic rack to fit their MX2020 router, which is a 45RU high. ...

Keep equipment safe in the harshest of environments. Eaton Seismic Cabinets are designed to protect rack-mounted equipment in earthquake prone settings.
