Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal management, and parallel ...

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

An earthquake is a violent and abrupt shaking of the ground, caused by movement between tectonic plates along a fault line in the earth's crust. Earthquakes can result in the ground ...

Outdoor cabinets from HuiJue are engineered to maintain internal stability even under rapidly changing external temperatures, direct solar radiation, or high humidity.

On 28 March 2025, two powerful earthquakes struck central Myanmar's Sagaing Region near Mandalay. The first, with a magnitude of 7.7, occurred at 12:50 p.m. local time, followed by a ...

IP54-rated cabinet with active thermal management for harsh weather and temperature extremes. Supports parallel connection for flexible system expansion based on project needs. Integrated BMS, ...

A community struggling, yet unbroken & WHO's people centered response The hardships these individuals face reflect the wider struggles of millions displaced by the earthquake. Safe water, ...

A 7.3 magnitude earthquake struck Port Vila on 17 December 2024, claimed 14 lives, destroyed critical infrastructure, and displaced over 2000 people who needed to stay in evacuation ...

On 17 December 2024, a powerful 7.3 magnitude earthquake struck near Port Vila, the capital of Vanuatu,

Earthquake-resistant outdoor photovoltaic cabinet for fire stations IP54 grade

impacting more than a quarter of the country's population. The disaster caused ...

Working closely with the government and partners, WHO is supporting to respond to the urgent health needs of the affected populationA 6.4 magnitude earthquake hit Nepal's Western ...
