What are battery enclosures & cabinets?

Battery enclosures and cabinets are a safe way to store batteries and to protect them from the elements as well as providing a line of defense against theft.

Why do I need a seismic rated enclosure?

Oops, something went wrong. Check your browser's developer console for more details. Protect equipment in any environment, regardless of geographic location. The use of seismic-rated enclosures is recommended in areas where earthquake activity or excessive vibration is possible.

What is a SunWize power ups cabinet?

The SunWize Power UPS Cabinets are targeted for battery backup system applications. These white powder-coated aluminum enclosures feature hinged, key lockable doors with dust covers on locks and gasketed doors.

What is a solar battery box?

This product is perhaps more commonly called a "solar battery box" but is also referred to as a "pole mount battery box". Some battery boxes are large enough to be considered battery cabinets and are usually made from painted steel. Battery enclosures keep your batteries safe from weather and safe from theft.

AZE's weatherproof Outdoor Enclosures provide durable, corrosion-resistant protection for energy, telecom, and industrial applications. Customizable, NEMA-rated, and built for harsh environments.
