The Moss Landing Energy Storage Facility utilizes advanced technology to provide durable and efficient energy storage solutions. It ...

Owner Vistra Energy has announced the completion of work to expand its Moss Landing Energy Storage Facility in California, the world's largest lithium battery energy storage system ...

The Moss Landing Energy Storage Facility, the world's largest lithium-ion battery energy storage system, has been expanded to 750 MW/3,000 MWh.

OverviewBattery energy storage facilitiesHistoryConnections to the California power gridNatural Gas power generationUtilities in California are required by a 2013 law to provide significant battery storage by 2024. The Moss Landing Power Plant site has since been chosen as California's primary location to provide battery based energy storage in order to better utilize renewable energy sources such as solar and wind on a grid-wide commercial scale. On June 29, 2018 Vistra Corp announced that it planned o...

The Moss Landing Energy Storage Facility utilizes advanced technology to provide durable and efficient energy storage solutions. It incorporates state-of-the-art lithium battery modules ...

Vistra, based in Dallas, has notified the California Energy Commission that it is dropping efforts to secure state permits to construct a 600-megawatt battery storage plant in Morro Bay, a...

After Moss Landing, what's next for battery storage? The fire that destroyed a 300-MW battery installation is a "learning opportunity" for a safety-conscious industry, experts say.

Today, EPA began oversight of the removal of lithium-ion batteries from the Moss Landing, California battery energy storage facility impacted in a January 2025 fire, marking the start ...

With completion of its third expansion in May 2023, the Moss Landing battery energy storage facility has

# Energy storage project landing

become the largest of its kind in the world.

The Moss Landing Power Plant is a natural gas powered electricity generation plant as well as a battery energy storage facility, located in Moss Landing, California, United States, at the midpoint of ...
