What is an IP55 outdoor cabinet?

The second "5" indicates that the body can withstand the effects of water jets coming from any direction. This means that an IP55 outdoor cabinet can operate safely during rain, splashes, or routine external washing, making it suitable for most outdoor telecom and electrical installations.

What is an IP55 enclosure?

IP55 enclosures offer a balanced level of protection for outdoor telecom, electrical, and industrial equipment, providing reliable performance across most climate zones. When properly selected and equipped, they ensure long-term operational stability even in demanding conditions.

What does IP55 mean?

The IP55 marking includes two digits that determine the nature and intensity of the enclosure's protection against external influences. The first digit "5" means that the cabinet is protected against dust to a level that prevents particles from interfering with the operation of telecom, electrical, or industrial equipment.

What is an IP55 rating?

One of the most widely used protection levels is IP55. In this article, we explain what an IP55 rating is, how protection against dust and water is achieved, and which design features allow an IP55 enclosure to withstand outdoor and industrial environments.

The free-standing industrial network cabinets are specially adapted according to protection type IP55 for the requirements of harsh environments. The floor structure can be opened in a modular design ...

SAFEbox IP55 Indoor Wall Mounting Cabinets are designed for industrial applications. Based on EN60529 provided IP55 protection class against dust and water ingress.

Our IP55 (Outdoor) wall housings were designed for industrial applications. They are based on the EN 60529 compliant IP55 protection class and are thus protected against dust ingress and water infiltration.

Our enclosures are designed by certified electrical engineers with over 15 years of industrial experience. They meet IEC 60529 standards for IP ratings and are CE and RoHS compliant.

# European Industrial Cabinet IP55 Project Solution

19" cabinet for outdoor / industrial areas with IP55 protection P/N: RIO-XX-CYY Height

If you are looking for robust and well-engineered solutions, you can explore our range of IP55 rack cabinets and outdoor enclosures designed for professional telecommunications and ...

Designed and manufactured in compliance with the CEI EN 60529 standard, they have an IP55 protection, guaranteed by a sealing mixture in polyurethane material. These cabinets can be ...

Find your ip55 electric cabinet easily amongst the 38 products from the leading brands (RITTAL, DIGITAL ELECTRIC, h&#228;wa, ...) on DirectIndustry, the industry specialist for your professional ...
