Do you finance solar & storage projects?

We finance both solar plus storage projects as well as standalone storage projects. We know the asset class and can provide value with long-term, project-level debt. Our solar lending team members are experts in utility-scale and C&I solar, community solar and energy storage project financing nationwide.

Does project finance apply to energy storage projects?

The general principles of project finance that apply to the financing of solar and wind projects also apply to energy storage projects. Since the majority of solar projects currently under construction include a storage system, lenders in the project finance markets are willing to finance the construction and cashflows of an energy storage project.

Can a PPA be used to finance a solar installation?

The National Renewable Energy Laboratory (NREL) has drafted example contracts for a variety of PPA arrangements for use in creating or vetting new PPA programs. DOE has a draft RFP for use in requesting applications to create either a PPA or a lease for financing a solar installation. Select each financing option to dive deeper and learn more.
