What is an IP55 outdoor cabinet with cooling fan?

AZE's Customized IP55 6U 9U 12U 15U 19 Inch Network Outdoor Cabinet with Cooling Fan are designed to protect sensitive network equipment from harsh environments where equipment may be exposed to dust or water. Made from powder-coated & welded cold rolled steel, they come in a variety of sizes with IP55 rating for extra protection from the elements.

What is an IP55 outdoor cabinet?

The second "5" indicates that the body can withstand the effects of water jets coming from any direction. This means that an IP55 outdoor cabinet can operate safely during rain, splashes, or routine external washing, making it suitable for most outdoor telecom and electrical installations.

What is an IP55 enclosure?

IP55 enclosures offer a balanced level of protection for outdoor telecom, electrical, and industrial equipment, providing reliable performance across most climate zones. When properly selected and equipped, they ensure long-term operational stability even in demanding conditions.

What is an IP55 rating?

One of the most widely used protection levels is IP55. In this article, we explain what an IP55 rating is, how protection against dust and water is achieved, and which design features allow an IP55 enclosure to withstand outdoor and industrial environments.

It is designed for a variety of applications and can be tailored to fit your specific needs. This cost-effective solution has a unique cube design that gives flexibility to easily have various heights of cabinets.
