The screw to the battery tray falling out is not uncommon. It has happened to me twice. Holosun even mentions this in the manual and recommends you Loctite the screw whenever you ...

Giving my multiple 11 speed Campagnolo system more life by building a new "power unit" that includes wired or wireless shifting. But I need to solve the battery problem and I can get better...

View & download of more than 338 EPS PDF user manuals, service manuals, operating guides. Power Supply, Water Pump user manuals, operating guides & specifications.

If you do not intend to use the EPS Power Unit for a prolonged period of time, it must be switched off and kept in a safe place. We also recommend checking the battery charge level and fully charging the ...

Replace the battery as needed: The Holosun EPS Carry typically uses a CR2032 battery. Replace it when the indicator shows low battery status or every two years, even if it still appears to ...

The battery is a perishable product and charge capacity will reduce gradually with repeated use and over time. If charge duration reduces significantly, the battery may be depleted, requiring the ...

When the COVID-19 pandemic resolves and the bicycle industry gets back to production, I am planning on building up my first EPS bike after many decades of using Campagnolo mechanical ...

I've done it, but I did not actually replace the batteries. These photos show the battery model number. I believe the yellow wire may be attached to a heat sensor or something like that. ...

Quick overview of the process of swaping a standard external campagnolo battery for a cleaner and sleeker internal version.

How to replace the battery in the eps battery cabinet

My new 500 dollar optic that I only used a couple of times is now a paper weight and Holosun won't send me a new battery tray and screw. I've heard horror stories online of it taking you 7 ...
