Explosion proof Zone 1 & 2 Uninterruptible Power Supply supplies a reliable and stable supply voltage to critical control & instrumentation systems in Zone 1 & 2 hazardous areas and supporting equipment ...

We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services..

For hazardous area applications such as LNG or oil and gas terminals, we can supply explosion proof solar panels according to the latest ATEX and IECex guidelines.

The cabinet maintains high efficiency in both on-grid and off-grid modes, converting fluctuating energy prices into predictable costs. With stable output and fast response speed, it meets the demands of ...

Our certified solar specialists provide round-the-clock monitoring and support for all installed home solar systems. From the initial consultation to ongoing maintenance, we ensure that your photovoltaic ...

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...

Equipment installed in areas at risk of explosion must ensure public safety. For this reason, these materials must be provided only by companies able to attach the relevant product certificate of ...

We use the highest quality components that can be found on the market to ensure long-lasting and reliable functionality. Our low-voltage cabinets have already proven themselves on numerous solar ...

We can provide users with full-scenario lithium battery systems, and provide customized lithium battery solutions to high-end users. Click the link below to download technical documents

Hungarian explosion-proof solar cabinet system equipment

Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, fire protection, ...
