Efficient and Flexible High-efficiency liquid cooling technology with the temperature difference ≤ 3 °C Modular design supports parallel connection and easy system expansion

Pytes HV48100 SE is a high-voltage outdoor LFP energy storage system. IP55 rated, wide temperature range, supports parallel expansion up to 76.8kWh, built-in fire protection, and remote monitoring. ...

The MPINarada NESP Series LFP High Capacity Lithium Iron Phosphate batteries are designed for a broad range of BESS solutions providing a wide operating temperature range, while delivering ...

At the same time, our Outdoor liquid-cooled energy storage cabinet is distributed and cluster coordinated through modular design to solve the challenges faced by the energy storage system, ...

AZE's heavy duty outdoor battery enclosures and Lithium battery storage system are available in NEMA 3R, or 4X configurations. These outdoor battery enclosures, which come in all shapes and sizes, are ...

The ELECOD Outdoor Cabinet Energy Storage System (Liquid-Cooled) offers an integrated, high-performance energy storage solution designed for small- to medium-scale commercial, industrial, ...

Explore the 372 KWh-1860 KWh Outdoor Cabinet Liquid Cooling Energy Storage System by Huijue Group, designed for high-efficiency energy storage, optimal thermal management, and reliable ...

Our outdoor cabinets with lock/hinged doors are suitable for housing multiple battery racks. The interior is air-conditioned by a cooling unit that is mounted on the side wall or door leaf.

HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, and rapid response.

Low-temperature outdoor energy storage cabinet for gymnasiums

The Outdoor Cabinet Energy Storage System is a fully integrated solution that combines safe battery storage, intelligent power management, and weatherproof protection for solar and telecom applications.
