Large-scale containerized battery systems designed for grid support, peak shaving, and renewable integration.

60kWh/200kWh outdoor integrated cabinet for industrial and commercial storage. Suitable for various industrial and commercial application scenarios such as industrial parks and commercial complexes, ...

Modular battery cabinet for extended runtime for UPSs with internal batteries. The cabinet is supplied without batteries, so modular battery strings must be purchased separately. Up to 9 battery strings ...

Rack-mounted modular UPS system with capabilities for protecting critical loads - from 25 to 75 kVA/kW
MODULYS RM GP is a 3-phase modular UPS system designed for 19" rack integration.

Your customized battery packs will be fully certified to the highest international standards, ensuring safety, quality, and global compliance. Our comprehensive certification portfolio includes: Transport ...

Easy to integrate and install whilst simple to manage and maintain, it provides maximum availability and power protection in a compact design leaving free space for other rack-mounted devices. Fully ...

The battery energy system consists of battery modules connected in series to meet the required direct voltage level, typically 600-1500Vdc. The racks are connected in parallel to meet the needed energy ...

PAC-75-50 system is an intelligent and modular power supply equipment integrating lithium battery and MPCS.

Highly efficient, easy-to-deploy 75kW, 208V 3-phase UPS that brings best-in-class power protection and low total cost of ownership to edge, small and medium data centers, as well as to critical ...

Presentation : Highly efficient, easy-to-deploy 75kW, 208V 3-phase UPS that brings best-in-class power protection and low total cost of ownership to edge, small and medium data centers, as well as to ...
