Where can I find the best server racks & cabinets?

RackSolutions has been manufacturing high quality server racks and cabinets for over 20 years. Whether you need a single rack at home or a thousand in a data center, you'll find the best that money can buy right here. On this page, you can filter through popular models which can be customized further in their product pages.

Where are server racks made?

Since 1999, we have provided server racks, cabinets, and enclosures that continuously satisfy our customer's high standards and are Made in the USA! Our IT products are flexible and compatible with all rack mount servers or other electronics, to adapt to changing needs.

What is a server rack?

Server Racks provide the essential backbone for housing IT infrastructure. These structures are more than just metal boxes. Engineers design them to protect, organize, cool, and manage important IT hardware. This hardware powers everything from small businesses to large global companies. EDP Distribution provides a variety of 19" cabinets.

How wide can a server rack be?

On our website, width is filtered by which server chassis the rack can fit. External width is relevant to the space that the rack takes up inside of a room. It can extend up to 32 inches to provide space for cable management, power supplies and other accessories. This can be customized more through individual item pages.

Not all server racks are made equal, and one size does not fit all applications. In order to fill the need for all scenarios we carry air-conditioned, NEMA rated, soundproof cabinets for loud servers, and a wide ...

Founded in 1929, the company is headquartered in Wilkes-Barre, Pennsylvania with a global manufacturing and distribution footprint that enables us to offer over 30,000 products to customers all ...
