Who makes outdoor Telecom cabinets?

Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies, utilities, and network operators with BABA-compliant solutions that protect critical equipment from the harshest environmental conditions.

Where are outdoor Telecom enclosures made?

Every outdoor telecom enclosure we manufacture is designed, fabricated, and assembled entirely in the USA. Our commitment to American manufacturing means you receive consistent quality, faster lead times, and complete Build America, Buy America (BABA) self-certification documentation with every order.

What environment telecommunications enclosure works best?

NEMA standards indicate what environment telecommunications enclosure works the best. The environment can be outdoor/indoor or dry/wet. Therefore, you must study the environment your telecommunications enclosure might be exposed to. The enclosure rating will be based on how much they can resist those environmental climates.

What is a telecommunication cabinet?

The cabinet is an ideal solution for physical connections of outdoor telecommunication equipment, transmission equipment, power equipment, monitoring equipment, lithium batteries and other supporting equipment. Both active telecom equipment and passive telecom equipment can be accommodated inside the cabinet.

Our telecom enclosures are made from heavy-duty steel and designed to provide superior protection when confronted with extreme weather, moisture, and other hazards. KDM utilize the right materials ...

We've solved the "overheating in summer" problem. Our IP55 cabinets feature 300W-3200W DC cooling and universal brackets that cut install time by 40%. Protect your critical gear with ...

Our NEMA-rated cabinets are built to withstand whatever nature delivers. Each weatherproof outdoor enclosure is rated NEMA Type 3, 4, 5, or 6 and undergoes rigorous field testing to ensure reliability ...
