From Kinshasa to Lubumbashi, our lights are perfect for providing lighting along remote highways and in inner-city neighborhoods. These lights are designed with durability in mind, and we've proven our ...

Over 28,000 households and businesses in eastern Democratic Republic of the Congo will have access to affordable and reliable electricity, alongside 600 solar street lights illuminating their roads. Once ...

To support this growth, the city of Kolwezi has unveiled its first-ever road interchange, an innovative and sustainable infrastructure fully illuminated by solar-powered streetlights provided by Sunna Design ...

Twenty-two iSSL Maxi 4 solar streetlights have been installed in the Phase 3 parking areas, covering the campus and coworking spaces. This new extension, offering 125 parking spaces, required reliable, ...

GOMA, Congo (AP) -- Street lights erase the shadows where attackers once hid. Noisy, polluting diesel generators have gone silent. New businesses are taking root.

If you're tired of unreliable electricity and looking for a solar partner who actually delivers--let's talk. Whether it's your neighborhood, your business, or a large-scale project, ...

Supporters see it as a model that could successfully light up areas across the Democratic Republic of Congo and elsewhere, where conflict and poverty have long kept electricity out of reach, ...

We supplied a solar street lighting system consisting of over 1050 units in Kinshasa, Democratic Republic of the Congo (DRC), lighting up the prestigious main road from the airport right through the ...

Since 2013, Altech, a Congolese-owned solar home system company, has been lighting homes in some of the remotest parts of the Democratic Republic of the Congo (DRC).

New solar street lights in the democratic republic of congo

Our latest project in the DRC is a testament to this innovation. By installing advanced solar-powered streetlights, we have not only improved visibility on critical roadways but also significantly reduced ...
