What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

Can telecommunications equipment be terminated outdoors?

One of the biggest challenges of terminating your telecommunications equipment outdoors is finding outdoor enclosures that will be able to properly withstand the elements. Temperature, moisture, ice, shock hazards, and UV damage are all potential dangers to consider before purchasing an outdoor enclosure or cabinet.

How is a telecom cabinet installed?

Installation: The cabinet is installed on-site, typically on a concrete pad or mounting base. All telecom equipment is configured and connected to the appropriate power sources and communication lines.

Discover AZE Telecom's weatherproof outdoor electrical enclosures and durable outdoor cabinets. Protect your electrical and telecom equipment from harsh environments with our IP-rated, ...

The 42U Outdoor Network Cabinet is a premium weatherproof and IP66 rated network enclosure designed to protect your valuable network devices and servers in harsh outdoor environments.

We provide superior outdoor enclosures that are ready for installation. Fill out our registration form or call us at 904-674-2976 to learn more about our products and customization services.
