The future health, growth and economics of U.S. wind and solar for the foreseeable future are largely determined by political and not technical issues. Globally, solar and wind development is ...

The Trump administration said on Thursday that it would apply new layers of political review to wind and solar projects, potentially creating hurdles for renewable energy developments...

The Trump administration has been aggressively working to suffocate the wind and solar industry in the United States. Its latest action could do the trick.

The administration argues that subsidizing solar and wind projects--many of which rely on equipment from China--undermines national energy security, grid stability, and American jobs.

The U.S. Department of the Interior has announced a significant shift in how wind and solar energy projects will be evaluated, introducing stricter political reviews that could delay ...

Solar and wind projects that need federal permitting will face even closer scrutiny by the Trump administration, with Interior Secretary Doug Burgum now making the final decision on whether...

While the rule change does not explicitly contemplate wind and solar power generation, many issues that the rule addresses relate to independent renewable generators.

The enhanced oversight on clean-energy projects is aimed at "ending preferential treatment for unreliable, subsidy-dependent wind and solar energy," the Interior Department said in a statement ...

The Trump administration plans to put solar and wind projects through an elevated review process, saying that moves toward approval will have to be vetted by Interior Secretary Doug ...

## Political bureau solar telecom integrated cabinet wind and solar complementarity

The federal government is poised to put solar and wind projects through strict new reviews that may delay projects across the country, according to a widely circulating document reviewed by ...
