How much does an off-grid solar system cost?

An off-grid system costs between \$45,000 and \$65,000, with an average price closer to \$55,000. Cost varies based on your system size, type, and energy needs, as well as the components you choose. How long do off-grid solar systems last? An off-grid system can last 25 years or more with proper maintenance.

What is an off-grid solar power system?

An off-grid system is a solar power system that doesn't connect to a utility grid. Typically, these types of systems are used in locations that don't have access to power lines or where the cost of connecting to the grid is prohibitive. If you're considering installing an off-grid solar power system, you'll want to know its cost.

System Size

What are the best off-grid Solar System packages with batteries?
