What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

Who makes outdoor Telecom cabinets?

Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies, utilities, and network operators with BABA-compliant solutions that protect critical equipment from the harshest environmental conditions.

Where are outdoor Telecom enclosures made?

Every outdoor telecom enclosure we manufacture is designed, fabricated, and assembled entirely in the USA. Our commitment to American manufacturing means you receive consistent quality, faster lead times, and complete Build America, Buy America (BABA) self-certification documentation with every order.

What is a minifort & small telco enclosure?

Compact Network Deployments: The MiniFort and Small Telco enclosures provide secure termination and equipment housing for smaller installations, requiring pole, ground, or wall mounting with minimal footprint. Flexibility defines every telecom cabinet we manufacture.

With the global push towards smart cities and improved connectivity, the demand for durable and efficient outdoor telecom enclosures will likely continue to rise, paving the way for further innovations ...
