What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

What are outdoor cabinet solutions?

Outdoor cabinet solutions are widely used in various sectors: Telecommunications: In telecommunications infrastructures, outdoor cabinets are used to protect base stations, network switches and other communication devices located outdoors.

How is a telecom cabinet installed?

Installation: The cabinet is installed on-site, typically on a concrete pad or mounting base. All telecom equipment is configured and connected to the appropriate power sources and communication lines.
