-----  
What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

Where are outdoor Telecom enclosures made?

Every outdoor telecom enclosure we manufacture is designed, fabricated, and assembled entirely in the USA. Our commitment to American manufacturing means you receive consistent quality, faster lead times, and complete Build America, Buy America (BABA) self-certification documentation with every order.

Who makes outdoor Telecom cabinets?

Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies, utilities, and network operators with BABA-compliant solutions that protect critical equipment from the harshest environmental conditions.

What are AP MiniFort® weatherproof enclosures?

Our compact, lightweight AP MiniFort® weatherproof enclosures offer flexible mounting options -- pole, ground, or wall installation -- and provide cost-effective protection for virtually any outdoor telecom application. This multifunctional outdoor enclosure offers integrated side, front, and rear access.

Designed for the telecommunication industry, our outdoor cabinet and enclosures can be deployed in harsh outdoor environments both rural or residential.
