This study examines expert opinions on power demand and supply developments for 2040 in Norway based on a combined survey and modeling approach. The survey responses show that ...

Many power plants in Norway have storage reservoirs and production can therefore be adjusted within the constraints set by the licence and the watercourse itself.

Browse over 400 job profiles by sector with a full breakdown of salary, responsibilities and required qualifications so that you can find the perfect graduate job.

This is where Norway's pumped storage capacity becomes strategic. By storing surplus energy in its reservoirs, Norway can redistribute this stored energy during periods of high demand, which helps ...

In our forecast, we foresee little growth in cross-border exchange of energy beyond hydrocarbons, limited green technology exports, and domestic emission cuts that fall short of Norway's own targets ...

Claire Toogood from AGCAS outlines the findings of a report on the priorities for careers and employability services in 2025.

Whether you choose to find a job or begin postgraduate study, there are a number of routes you can take after university. Explore your career options and see where your degree could take you.

The report describes DNV's view of the most likely development of Norway's energy future. It is the sixth year we publish this forecast for Norway, building on DNV's independent, global model of the world's ...
