Is it necessary to insure solar panels?

If you have leased solar panels, the leasing company may require you to obtain insurance coverage for the system, specifying coverage limits, deductibles, and additional insured parties. When you own solar panels, you have more flexibility in choosing the insurance coverage.

What is a dedicated solar panel insurance policy?

A dedicated solar panel insurance policy is designed to provide comprehensive coverage for your solar panel system. It often offers more extensive protection than what is provided by homeowners insurance.

Are solar panels covered by a separate insurance policy?

Separate insurance policies for solar panels may offer additional benefits, such as coverage for loss of income due to system downtime or the costs associated with temporary replacement power. These added protections could provide financial security in unexpected disruptions to your solar panel system.

How much does solar insurance cost?

Premium increases vary significantly by location due to regional weather risks and local insurance market conditions. For those who do see increased homeowners insurance costs after they go solar, payments can go up by as little as \$15 a month, or closer to a thousand dollars if they choose to get a separate solar panel coverage policy:
