Reasonable describes someone or something that's sensible and fair, like your teacher who gives reasonable homework assignments -- they don't take you forever to do and they relate to what you ...

Definition of reasonable adjective in Oxford Advanced American Dictionary. Meaning, pronunciation, picture, example sentences, grammar, usage notes, synonyms and more.

This report gives an overview on empirical degradation modelling and service life prediction of PV modules since they are the major components of PV systems that are subject to the effects of ...

The lifespan of solar photovoltaic power generation systems varies significantly based on numerous factors, but it typically falls within the 25 to 30-year range. The intricate relationship among ...

To extend the useful life of a PV system the goal is to minimize infant and mid-life features, reduce degradation rates and extend time to wear out.

Discover the factors that influence the lifespan of solar power systems, from durable panels to reliable inverters. Learn how quality components, regular maintenance, and proper planning can ensure over ...

While current solar technology and materials can ensure the stability and reliability of PV modules during their operational period, the 25-year lifespan is not an absolute limit--it is simply a ...

Define reasonable. reasonable synonyms, reasonable pronunciation, reasonable translation, English dictionary definition of reasonable. adj. 1. Capable of reasoning; rational: a reasonable person.

This comprehensive guide dives into everything about the average life of solar panels, including degradation rates, influencing factors, warranties, and maintenance tips.

Reasonable service life of solar energy system

Adjective reasonable (comparative more reasonable, superlative most reasonable) (now rare) Having the faculty of reason; rational, reasoning. Synonym: reasonous Antonyms: irrational, ...
