We're proud to share a major milestone: the largest off-grid solar installation in Tanzania, completed at Four Seasons Safari Lodge Serengeti! ?? ...more

Whether it's a solar solution for a hotel or lodge, a mini-grid for rural electrification, or a solar-powered irrigation system, we design each system for long-term durability and energy savings.

Researchers and investors say they see room for PV investments in Zanzibar, due to the energy needs of many luxury holiday resorts. Zanzibar is the part of Tanzania that is most likely to...

The findings showed that solar energy use has expanded moderately but the benefits are not fully utilised yet.

15kW Solar System for a Residential Apartment Complex in Zanzibar with shared battery storage. 10kW Solar System for a Rural Health Center in Morogoro with reliable backup power. 30kW Solar System ...

This brand new luxury resort is (surprisingly) the first large tourist accommodation in the park to run entirely from solar power. This is not just for lighting, as it includes heating, running the ...

Located in the Serengeti National Park, Tanzania, a unique eco-safari project has been implemented, showcasing the successful integration of solar energy and lead battery storage in off-grid safari lodges.

Located in the heart of Serengeti National Park, this sustainable installation ensures uninterrupted power, advanced telecommunications, and long-term operational efficiency for one of ...

In Tanzania, the Four Seasons Safari Lodge Serengeti is home to the largest off-grid solar installation in the country. What makes this project truly special is the joint commitment to blending into the natural environment, maintaining a low impact on the stunning Serengeti landscape.

Resort uses 15kW off-grid solar energy storage unit in Tanzania

In ten safari lodges in the Serengeti, Tanganyika Expeditions is powering their operations using solar energy and lead battery storage. Disconnected from the Tanzanian utility grid, the safari lodges are ...
