Since 2000, the team has been providing world-wide services considering power systems of all sizes, ranging from small islands to large interconnected systems.

Contact us today to explore customized solar solutions for your needs, whether you're interested in grid-connected, off-grid, or hybrid solar systems. Our team at Solarvance is here to guide you through ...

By deploying floating solar technology, the project makes use of lagoon surface area rather than scarce land, helping to overcome space constraints while unlocking new clean energy ...

To date, affordable and effective solar and battery storage systems have opened up new possibilities for the archipelago, particularly in its high-end tourism sector.

In collaboration with Solar Drive, Sun Tech Seychelles now offers a solar PV conversion kit that transforms the roof of electric-powered vehicles (EPVs) into a solar platform for free charging using ...

The Seychelles Solar Control System represents a transformative approach to energy independence for island nations. With 115 islands scattered across the Indian Ocean, Seychelles faces unique ...

Seychelles is set to launch Africa's largest floating solar farm by 2025. Learn how this 15 MW project will advance renewable energy, cut emissions, and boost energy security.

Under the PPA, Qair will develop, build and operate on the lagoon of Providence a 5.8 MWp floating solar plant to supply renewable energy to the Seychelles grid.

Sun Tech Seychelles Solar (PV) Systems Installer is ready to help you go green! Since 2009 our team has been sourcing out and installing the best solar photovoltaic (PV) technology available on the ...
