Amsterdam, Netherlands -- January 28th 2026 -- Solar deployments are booming, but stand-alone solar increasingly struggles with grid congestion and price cannibalization. The next ...

Wood Mackenzie highlights a groundbreaking 5.2 GW solar-plus-storage project in the UAE capable of delivering 1 GW of continuous baseload power, signaling a potential shift in ...

In early June, Greentown Company, a subsidiary of Lin-gang Group, announced the construction of Shanghai's first large-scale industrial and commercial solar-plus-storage microgrid ...

SHANGHAI, June 21 (Xinhua) -- U.S. carmaker Tesla on Friday inked a deal with Chinese partners to build a grid-side energy storage station in Shanghai using its Megapack energy-storage batteries.

Global demand for energy storage is surging. Lithium-ion leads today, but new contenders like sodium-ion, flow, and gravity systems are shaping the future grid.

The project includes a 1,150-megawatt (MW) solar facility with approximately 3.1 million panels and up to 1,150 MW (4,600 megawatt-hours) of battery storage - enough to power 850,000 ...

In 2024, generators added a record 30 GW of utility-scale solar to the U.S. grid, accounting for 61% of capacity additions last year. We expect this trend will continue in 2025, with 32.5 GW of new utility ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage solutions ...

Following similar pieces in 2022/23, we look at the biggest energy storage projects, lithium and non-lithium, that we've reported on in 2024.

The Company develops solar and Battery Energy Storage System (BESS) projects that sell electricity to

Solar new energy storage project

utilities, commercial, industrial, municipal and residential off-takers.
