-----

This power station is the first grid-connected solar project developed by an IPP in Burundi. It is also the first major electricity generation investment in the country, in the past 30 years. The renewable energy infrastructure was on the books since 2016. Attempts were made to start construction in 2018, but the process aborted. In January 2020, construction started in earnest. Despite delays attributed to the COVID-19 pandemic, the power installation was commercially commissioned i...
