What is a solar street light?

All in one solar street lights integrate a monocrystalline solar panel, Phillips 5050 LED chips, and a long life LiFePo4 battery into a compact, reliable, and extremely bright package. This solar all in one street light, and solar parking lot light is an alternative to traditional solar lighting system design.

What is a solar street light & parking lot?

Solar Lighting International's All-In-One solar street and parking lot and street light provides multiple programming options. Standard features are a standard dusk-to-dawn solar lighting option without dimming, optional adjustable timed control mode, and motion-activated human body sensor mode via our dual sensor technology.

What is a solpole solar street light?

SOLPOLE is the latest vertical mounted Solar street light. With the easiest installation on the market, cutting-edge LIFEPO4 battery technology, and a dust-resistant design that requires no cleaning, SOLPOLE is...

What is an integrated solar street light?

read more... Integrated solar street lights consists of high efficiency solar panels, long life lithium batteries, LED of high light effect, intelligent controller and PIR motion sensor. read more...

This solar all in one street light, and solar parking lot light is an alternative to traditional solar lighting system design. We provide a single, complete unit all in one integrated solar street light that requires ...

All-In-Two Solar LED Street Lights are innovative, energy-efficient lighting solutions for outdoor spaces. They integrate cutting-edge solar technology with LED illumination, providing sustainable, reliable, ...

This SL36 double street light model is ideal for applications where lighting is required on both sides of the pole or 360 degree illumination. Supplied as a complete system to include two power LED ...

Thanks to a separate solar panel and luminaire, you can optimize panel orientation while ensuring precise light distribution -- making it the ideal solution for roads, wide-open areas or sites with ...

Solar street light dual system

SOLPOLE is the latest vertical mounted Solar street light. With the easiest installation on the market, cutting-edge LIFEPO4 battery technology, and a dust-resistant design that requires no cleaning, ...

Combined with a 300° multi-angle lighting design, it evenly covers up to 5000 sq.ft with no dark zones. It is very suitable for large-scale lighting applications such as parking lots, highways, ...

The DSC-X Double-Sided Solar Street Light by JSDSolar is a high-performance outdoor lighting solution designed for municipal, roadway, and large-scale projects.

The UP2 is a powerful all-in-two solar lighting system with a dual-panel design for increased energy capture. It features top-quality Acuity fixtures, quick installation, and app-based setup.

Ideal for demanding environments where consistent, off-grid power is crucial, the AEROMAX DUAL seamlessly combines reliability with endurance. The Aeromax Dual is a modular solar street light ...

Our Dual Series of Solar Street Lights features two lighting fixtures that are mounted on one pole, allowing each street light to effectively illuminate wide areas. The Dual Series is ideal for roadway ...
