What is IP54 rated cabinet?

The robust IP54 rated cabinet provides environmental protection from harsh applications where dust and humidity could severely impact system performance and equipment life-span. The pre-integrated cooling module delivers either 3.5 or 7.0kW of scalable cooling capacity while allowing for full rack U-space utilization for increased IT deployment.

Why do you need an IP54 server cabinet?

Since electronic equipment is extremely susceptible to damage from external influences such as heat, cold or dust, and dirt deposits, costly new purchases can become necessary more frequently. In an IP54 server cabinet, all IT equipment can be stored neatly and compactly and protected from these very possible damages.

How much protection does an IP54 server cabinet need?

For an IP54 server cabinet, a degree of protection of 4 provides good protection against splashing water. Since server cabinets are not submerged, this degree of protection is usually perfectly adequate. Splash water protection is particularly useful for industrial use. An IP54 server cabinet can be a perfectly sensible purchase for many sectors.

The robust IP54 rated cabinet provides environmental protection from harsh applications where dust and humidity could severely impact system performance and equipment life-span.

C& D Stationary Battery Cabinet offerings are designed to meet the latest UL standards. They feature an improved cooling profiles to maintain optimal battery life.

This fully sealed micro data center offers 3.5 or 7.0 kW of scalable cooling capacity while enabling full rack utilization through an innovative zero-U design, allowing for more IT deployment in a single rack.

If you do not find an IP54 server cabinet in our offer that fully meets your requirements, we are also able to develop and produce a special cabinet that is exactly tailored to your needs.

Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This solution is completely customizable and flexible to support your application ...

Subway Data Center Battery Cabinet IP54

Constructed from heavy-duty steel in a durable black powder-coat finish, the SR24UBFFD supports a maximum load capacity of 1000 lbs (453.6 kgs). The louvered front door and built-in dust filters ...

When do I need an enclosure with an IP54 rating? This rack type is intended especially for application in surroundings with conditions which are detrimental to IT components (dust, dirt, aggressive media), ...

Constructed from heavy-duty steel with a durable black powder-coated finish, the cabinet has a maximum load capacity of 1000 lbs (453.6 kgs). The SRX12UBFFD protects sensitive equipment ...

Weight 150 Communication Port Rs485, CAN, RS-232 Protection Class IP54 Cooling Air Cooling Product name Commercial Battery Cabinet OEM/ODM Acceptable Cycle Life 6000 Cycles Capacity ...

The RCAB-OD-4535 is an outdoor cabinet system for active and passive equipment that provides maximum protection of customer"s equipment against vandalism and extreme weather conditions.
